The Sustainability of Pre-Engineered Metal Buildings

Sponsor: Gulf States Manufacturing & Mississippi State University & US Green Building Council (USGBC)

Date: October 19, 2012, Friday
Time: 11:00 a.m. - 1:00 p.m.
Location: Giles Hall, Mississippi State University
Cost: Lunch will be provided

Objectives:
Development and understanding of sustainable initiatives related to the steel industry
Identify key sustainable attributes that relate specifically to the Pre-Engineered Metal Buildings industry
Explain how Pre-Engineered Metal Buildings can contribute to the LEED rating system
